

A tropical resort at dusk. The scene is dominated by tall palm trees in the foreground and middle ground. In the background, a calm ocean meets a sky with soft purple and blue hues. A large, circular dining pavilion with a thick thatched roof and wooden pillars is illuminated from within, casting a warm glow. The pavilion is situated on a raised platform. To the left, a curved wooden walkway leads towards the beach. The overall atmosphere is serene and luxurious.

Jetwing
SURF & SAFARI
A Luxury Reserve

Your home of eco-luxury in the enchanting east

INTRODUCTION

Located in Pottuvil on Sri Lanka's unspoilt East Coast, Jetwing Surf & Safari, Jetwing Luxury sets a new benchmark in eco-tourism with its unique architecture. The 20-cabana resort is built using locally sourced wood, woven coconut palm leaves, and dried "illuk" grass. Inspired by seashells, the resort's design mimics their natural shape. Just 2 minutes from Pottuvil Point, an ideal spot for beginner surfers, and 10 minutes from the world-renowned Arugam Bay, Jetwing Surf & Safari is a paradise for surfers. Beyond the surf, the Enchanting East also enchants with its rich wildlife, ancient archaeological wonders, and captivating folklore—promising so much more than just waves.

LOCATION

Situated in the southeast of the island, 348km from Bandaranaike International Airport and 313km from Colombo, the property enjoys an ideal location on the outskirts of Pottuvil—a beloved destination for surfers. Accessible via the Southern Expressway with the extension to Mattala, it can be reached in approximately 6 hours and 15 minutes.

Eco-luxury by the eastern shores

CABANAS

The 20 cabanas are designed with intricate rope and woodwork, thatched roofs, with woven coconut palm leaves and dried paddy reeds – all environmentally friendly materials and can be naturally found in Sri Lanka. The interiors however are complete with every comfort including luxurious plush beds, spacious sofas, tea and coffee service and an outdoor deck with cozy summer beds and a large canopy umbrella.

SUSTAINABILITY
CREATING A BUTTERFLY EFFECT

SUSTAINABLE LUXURY, INSPIRED BY NATURE

Our energy-efficient design incorporates natural materials such as Cadjan for walls, timber for decks, and an illuk grass roof to minimise heat.

Our 144kW solar photovoltaic (PV) system not only powers the resort but also generates surplus renewable energy, contributing to Sri Lanka's sustainable future.

Our solar thermal system provides hot water sustainably for kitchen and restaurant use.

We minimise our environmental impact by treating and reusing all laundry wastewater for garden irrigation through our onsite effluent treatment plant, and by using glass water bottles to reduce plastic bottle consumption.

CURRENCY

Sri Lankan Rupees and all other major currencies and credit cards are accepted. Currency conversion facilities are available.

WEATHER

Temperature in Pottuvil fluctuates between 26°C and 36°C depending on the season.
